Review Report of the Directors of the Management Company For the quarter ended September 30, 2014

The Board of Directors of Lakson Investments Limited, the Management Company of the Lakson Asset Allocation Global Commodities Fund ('LAAGCF') is pleased to submit its review report together with Condensed Interim Financial Statements for the first quarter ended September 30, 2014.

Fund Objective

The investment objective of the LAAGCF is to provide long-term capital appreciation by investing in a mix of domestic debt and commodities.

Fund Profile

The LAAGCF is an open end asset allocation scheme. The Scheme shall be managed using an active investment management style which focuses on an analysis of the macro factors such as government policies, global economic data, commodities prices and supply/demand dynamics. The Scheme shall switch exposure between the domestic Government Securities and the commodities based on the outlook of the Investments Team of the performance of the commodities. The Scheme may overweight or underweight commodities relative to its benchmark for commodities investments, the DBIQ Optimum Yield Diversified Commodity Index Excess Return. Exposure of the Scheme in the fixed income securities shall be managed through duration and yield curve management by shifting between different maturities of the Government Securities.

Fund performance

During the first quarter of the FY15, the LAAGCF has provided a return of 2.10% compared to the Benchmark (70% 6-month T-Bills + 30% DBLC - OY Balanced Index) return of -0.69%. As of September 30, 2014, the LAAGCF is invested 73% in T-Bills and 27% in Bank Deposits. As of September 30, 2014 the LAAGCF has PKR 221 million in assets under management.

Earning per Unit (EPU)

EPU has not been disclosed as we feel the determination of weighted average units for calculating EPU is not practicable for open end funds.

Economic Review

Political developments during the start of new fiscal year brought the capital of Pakistan to a standstill, amidst anti-government protests staged by PTI's Imran Khan and PAT's Tahir-ul-Qadri. Both the leaders called on the Prime Minister to resign, saying that last year's landslide election victory was rigged. Meanwhile, COAS ("Chief of Army Staff") raised his support for democratic and civilian forces in the country which ruled out possibility of a military takeover. While much of the attention during the period was inclined towards political disruptions, the recent floods managed to divert public attention away from politics to likely damages in Central and Southern Punjab. However, in terms of crop damage, the ongoing floods seemed less severe than 2010 floods.

The inflationary pressures in the economy abated as the headline inflation retreated during the first quarter FY15, averaging at 7.5% YoY compared to 8.6% YoY witnessed during the previous quarter. Inflation eased off after the recent bugbear of food inflation moderated during the quarter, as food inflation averaged 6.6% YoY during the 1QFY15 compared to previous quarter's average of 8.2% YoY. The government largely tackled the food prices by allowing duty free import of perishable food items from the neighboring country. On the flip side, the State Bank of Pakistan ("SBP") kept the discount rate unchanged during the two monetary policy meetings conducted during the quarter. Although the headline inflation had been on the lower side, the cautious approach maintained by the Central Bank was attributed to deterioration in external account, political uncertainty and concerns on delay in the approval of the 5th IMF tranche.

External account of the country remained under severe pressure owing to a weak current account position coupled with delayed inflows. The current account deficit for 2MFY15 stood at USD 1,372 million, compared to a deficit of USD 580 million during the same period of the last year. The deterioration in current account came in from a higher trade deficit which increased by 55% YoY to USD 4.2 billion. Exports declined by 11.0% YoY to USD 3.8 billion while imports were up by 14.9% YoY

to USD 7.9 billion. However, remittances continued to provide support to the crippling current account, growing by 12.6% YoY to USD 3.0 billion during the period.

The pressure on PKR continued to grow amidst delayed financial inflows along with political uncertainty in the country. Pakistan failed to satisfy the International Monetary Fund ("IMF") for the fifth tranche of USD 550 million as the reform process earlier initiated by the government slowed down in the midst of political crisis. The foreign exchange reserves of the country declined by USD ~1 billion during the quarter to USD 13.2 billion (as of Sep 26th 2014). Consequently, the Pak Rupee felt the pressure during the quarter, depreciating by 4.0% against the greenback, and closed at 102.6 per USD.

Fixed Income Market Review

The course of the monetary policy was kept essentially unchanged during 1QFY15 as the SBP held the discount rate steady at 10%. The past quarter saw an improvement in the country's macro indicators with foreign exchange reserves rising to USD 14.6 billion from USD 8.5 billion at the close of December'13. However, in the July MPS meeting the SBP took a wait-and-see stance on the sustainability of the economic turnaround and kept the discount rate unchanged. In August'14, macro economic trends shifted following the political protests in the country's capital. Foreign exchange reserves started depleting driven by deterioration in the trade deficit combined with lack of expected inflows from abroad, particularly from the IMF. In addition, the SBP highlighted risks of a potential uptick in inflation (1QFY15: 7.52% YoY) following this year's floods, and thus kept the discount rate steady in its September meeting as well. Liquidity in the banking system remained tight compelling the SBP to inject an average of PKR 78.3 billion via 12 (twelve) open market operations during the quarter, while mopping up PKR 55.6 billion via 3 (three) mop-up operations. The M2 money supply contracted by 1.97% (as of 19th September) vs. a contraction of 0.62% in the same period last year; the sharper slowdown in money supply was due to a significant reduction in government's fresh borrowing for budgetary support. The yield curve has steepened during the quarter as yields on the 3-month and 4-month T-Bills increased by 5 and 2 basis points ("bps") respectively, while the yields on the 3-year and 10-year PIBs increased by 26 and 42 bps, respectively. During 1QFY15, the government had planned to raise PKR 700 billion from the auction of T-Bills; however, it fell short of its target and raised PKR 658 billion against a maturity of PKR 630 billion. Cumulatively, the bid-to-cover ratio of the T-Bill auctions came in at 0.89x for 1QFY15 vs. 0.85x for FY14, indicating a neutral participation in the T-Bill auctions as banks preferred to park their liquidity in long-term instruments. The PIB auctions witnessed volatile participation as investors seemed uninterested in investing in PIBs in the July and August auctions, but in September, their interest was rekindled. Thus, investors placed total bids of PKR 372 billion against the cumulative auction target of PKR 300 billion and maturity of PKR 259 billion. The government was able to raise PKR 311 billion from PIBs during 1QFY15.

Global Commodity Markets Review

Copper declined during the 1QFY15 because of ample supply and weak demand during summers. Copper prices fell, capping a weekly decline, as increasing inventories tracked by the Shanghai Futures Exchange signaled ample supplies. WTI declined in 1QFY15 as it looks to be in an oversold position now. Brent widened its premium over WTI as tension escalated in Northern Iraq. We expect WTI to rebound in the 2QFY15 as geopolitical situation is still not well. The stockpiles position has improved which is one of the reasons of oil going down. WTI crude fell below USD 90/bbl for the first time in 17-months as exploration drives US output to its highest in four decades. We expect oil demand to also improve as the US economy is recovering gradually.

Wheat rose in Chicago on speculation that demand will increase for U.S. grain after the wet weather eroded the quality of some of the crops in Europe. Wet weather late in the growing season probably cut quality of grain in both France and Germany, the second-biggest producer. Corn crops are maturing in mostly good condition, boosting prospects that output may reach to the second-highest ever. Corn futures fell to cap the biggest monthly decline since September 2011 on speculation that supplies will be ample with a bumper harvest forecast in the U.S., the world's top grower. Nonetheless, good economic data over the next few months are likely to put the subject of interest-rate hikes back on the Fed's agenda, which should reduce the relative attractiveness of gold. Gold remained flat in 1QFY15 on concerns that the Federal Reserve would raise interest rates as the economy gained traction.

Future Outlook

Pakistan's economic climate has started taking heat from the recent political crisis originated by the sit-ins by political heavyweights. With overall economic activity slowing down due to delay in the policy reforms and the crucial inflows from the donors, deteriorated energy supplies, decline in the PKR, the overall macro environment looks challenging now. On the other hand, CPI outlook is increasingly favorable given the recent decline in commodities prices in general and oil prices in particular, which is expected to provide a relief in the form of muted current account deficit going forward and thus a natural support for the PKR against the USD in the remainder of the FY15. However, interest rate scenario still looks downward sticky in the near term till the planned inflows on account of IMF tranches, new Sukuk issue in the international market as well as the on-going privatization of the state owned entities are materialized. The recent release of the coalition support fund money has provided some support to the foreign exchange reserves of the country.

Though the government is still working to resolve the current political as well as the chronic energy crisis, which remained persistent, accumulation of foreign reserves and managing inflation will remain the primary tasks, having direct implication on country's currency and interest rate outlook. Meanwhile, recent political turmoil, if continued, would have its bearing on investor confidence. In addition, there are continued delays in appointing heads of various state owned organizations which may have repercussions on industry.

Acknowledgment

The Board is thankful to its valued investors, the Securities and Exchange Commission of Pakistan, the State Bank of Pakistan, the Trustee of the Fund-Central Depository Company of Pakistan Limited and the management of the Lahore Stock Exchange for their continued cooperation and support. The Directors of the Management Company also acknowledge the efforts put in by the team of the Management Company for the growth and the prudent management of the Fund.

For and on Behalf of the Board

Babar Ali Lakhani
Chief Executive Officer

1. LEGAL STATUS AND NATURE OF BUSINESS

Lakson Asset Allocation Global Commodities Fund ("the Fund") was established under Trust Deed executed on May 30, 2011 between Lakson Investments Limited as its Management Company and Central Depository Company of Pakistan Limited (CDC) as its Trustee. The Fund has been registered as a notified entity on July 7, 2011 by the Securities and Exchange Commission of Pakistan (SECP) in accordance with the Non-Banking Finance Companies and Notified Entities Regulations, 2008. The Management Company of the Fund has been licensed by SECP as a Non-Banking Finance Company under the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003. The registered office of the Management Company is located at 14 - Ali Block, New Garden Town, Lahore.

The Fund is an open end mutual fund and is listed on Lahore Stock Exchange. Units are offered for public subscription on a continuous basis. The units can also be redeemed by surrendering them to the Fund.

The Fund is authorized to invest in government securities, deposits and foreign currency deposits with local or foreign banks and future contracts of different commodities in Pakistan. Further, as allowed by SECP and SBP, the Fund can invest abroad up to 30% of the aggregated funds mobilized (including foreign currency funds) subject to a maximum limit of USD 15 million. The investments authorized outside Pakistan include exchange traded funds based on equities / debt with exposure in the commodities, index tracker funds tracking different commodities indices, actively managed commodities based funds, equities and debt securities of companies with exposure in commodities, future contracts of different commodities and foreign currency deposits etc.

Title to the assets of the Fund is held in the name of Central Depository Company of Pakistan Limited as a Trustee of the Fund.

The JCR - VIS Credit Rating Company Limited has down graded the performance ranking of the fund to 1-Star and the Pakistan Credit Rating Agency Limited (PACRA) has maintained 'AM3+' (Management company quality rating) to the Management Company.

2. BASIS OF PREPARATION

2.1 Statement of compliance

These condensed interim financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Companies Ordinance, 1984, Non Banking Finance Companies (Establishment and Regulation) Rules, 2003 (the Rules) and Non-Banking Finance Companies and Notified Entities Regulations, 2008 (the Regulations). In case the requirements differ, the provisions or directives of the Companies Ordinance, 1984, and the requirements of the Rules and the Regulations shall prevail.

This condensed interim financial statements comprise of condensed interim statement of assets and liabilities as at 30 September 2014 and the related condensed interim income statement, condensed interim statement of comprehensive income, condensed interim cash flow statement, condensed interim distribution statement, condensed interim statement of movement in unit holder's fund, and notes thereto, for the quarter ended 30 September 2014.

The condensed interim financial statements does not include all the information and disclosures required in the annual financial statements and should therefore be read in conjunction with the financial statements of the Fund as at and for the year ended June 30, 2014.

This unaudited condensed interim financial statements is being submitted to the unit holders as required under Regulation 38 (g) of the Non-Banking Finance Companies and Notified Entities Regulations, 2008 (NBFC Regulations).

The Directors of the Management Company declare that these condensed interim financial information gives a true and fair view of the state of affairs of the fund.

2.2 Functional and presentation currency

This condensed interim financial statements is presented in Pak Rupees which is the functional and presentation currency of the Fund. Figures have been rounded off to the nearest rupees.

3. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of this condensed interim financial statements are the same as those applied in the preparation of the published financial statements as at and for the year ended 30 June 2014.

4. ACCOUNTING ESTIMATES

The preparation of condensed interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amount of assets and liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgments made by management in applying the accounting policies and the key sources of estimation uncertainty were the same as those that were applied to financial statements as at and for the year ended 30 June 2014.

5. FINANCIAL RISK MANAGEMENT

The Fund financial risk management objectives and policies are consistent with those disclosed in the annual audited financial statements for the year ended 30 June 2014.

8. REMUNERATION TO THE MANAGEMENT COMPANY

Remuneration payable to the Management Company	226,273	390,409
Sales tax payable on remuneration to the Management Company	184,198	196,256
Federal excise duty payable on remuneration to the Management Company	8.1	836,174
Sales load payable	2,481	2,481
	<u>1,359,848</u>	<u>1,425,320</u>

- 8.1** As per the requirement of the Finance Act, 2013, the Federal Excise Duty (FED) at the rate of 16% on the remuneration of the Management Company has been levied from 13 June 2013. The Management Company is of the view that since the remuneration is already subject to the provincial sales tax, further levy of FED may result in double taxation, which doesn't appear to be sprit of the law. A stay order against the collection have been ganted by honourable High Court of Sindh on a petition filed by the Mutual Funds Association of Pakistan (MUFAP) on September 04, 2013.

In view of uncertainty regarding the applicability of FED on asset management services, the management, as a matter of abundant caution, has decided to maintain the provision for FED amounting to of Rs. 0.946 million as at September 30, 2014. Had the said provision of FED not been recorded in the books of account of the Fund, the net asset value per unit of the Fund would have been higher by Re. 0.44 / 0.44%. (2014: Re. 0.24 / 0.24%)

9. ACCRUED EXPENSES AND OTHER LIABILITIES

		September 30, 2014 (Unaudited)	June 30, 2014 (Audited)
	Note	(Rupees)	
Auditors' remuneration		81,828	202,800
Workers' Welfare Fund	9.1	984,180	897,209
Brokerage Payable		-	2,977
Others		48,970	20,800
		<u>1,114,978</u>	<u>1,123,786</u>

9.1 Workers' Welfare Fund

The Finance Act 2008 introduced an amendment to the Workers' Welfare Fund Ordinance, 1971 (WWF Ordinance). As a result of this amendment it is alleged that all Collective Investment Schemes (CISs) / mutual funds whose income exceeds Rs.0.5 million in a tax year, have been brought within the scope of the WWF Ordinance, thus rendering them liable to pay contribution to WWF at the rate of two percent of their accounting or taxable income, whichever is higher. In this regard, a constitutional petition has been filed by certain CISs through their trustees in the Honourable High Court of Sindh, challenging the applicability of WWF to the CISs, which is pending adjudication.

During the year 2011, a single bench of the Lahore High Court (LHC) in a constitutional petition relating to the amendments brought in the WWF Ordinance, 1971 through the Finance Act, 2006, and the Finance Act 2008, has declared the said amendments as unlawful and unconstitutional and struck them down. However, in the month of March 2013, a larger bench of the Sindh High Court (SHC) in various constitutional petitions declared that amendments brought in the WWF Ordinance, 1971 through the Finance Act, 2006, and the Finance Act 2008, do not suffer from any constitutional or legal infirmity and overruled a single-member LHC bench judgement issued in August 2011. However, the Honourable Peshawar High Court on 29 May 2014 on a petition filed by certain aggrieved parties (other than the mutual funds) have adjudicated that the amendments introduced in the Workers Welfare Fund Ordinance, 1971 through the Finance Acts of 1996 and 2009 lacks the essential mandate to be introduced and passed through the money bill under the Constitution of Pakistan and hence have been declared as ultra vires the Constitution.

However, as per the advice of legal counsel of MUFAP, the stay granted to CIS (as mentioned in the first paragraph) remains intact and the constitution petitions filed by the CIS to challenge the Workers Welfare Fund contribution have not been affected by the SHC judgment.

As the matter relating to levy of WWF is currently pending in the Court, the Management Company, as a matter of prudence and abundant caution, has decided to make provision for WWF amounting to Rs. 0.984 million up to September 30, 2014.

Had the above recognition not been made, the net assets value per unit of the Fund would be higher by Re. 0.46/ 0.25%. (2014: Re. 0.25 / 0.25%)

10. CONTINGENCIES AND COMMITMENTS

There are no contingencies and commitments as at the balance sheet date.

11. TAXATION

The Fund's income is exempt from Income Tax as per clause (99) of part I of the Second Schedule of the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income for the year as reduced by capital gains whether realised or unrealised is distributed amongst the unit holders. Furthermore, as per regulation 63 of the Non-Banking Finance Companies and Notified Entities Regulations, 2008, the fund is required to distribute 90% of the net accounting income other than unrealized capital gains to the unit holders. The management intends to distribute at least 90% of the income earned by the year end by this Fund to the unit holders. The Fund is also exempt from the provisions of Section 113 (minimum tax) under Clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001. Accordingly, no provision has been made in these condensed interim financial information.

12. TRANSACTIONS AND BALANCES WITH RELATED PARTIES / CONNECTED PERSONS

Related parties include Lakson Investments Limited being the Management Company, Central Depository Company of Pakistan Limited (CDC) being the Trustee, Habib Bank AG Zurich being the Custodian, SIZA Services (Private) Limited being the holding company of the Management Company, associated companies of the Management Company, key management personnel, other funds being managed by the Management Company and unit holders holding more than 10% in the units of the Funds as at 30 September. 2014.

Remuneration to the Management Company and the Trustee is determined in accordance with the provisions of NBFC Regulations and the Trust Deed respectively. Other transactions are in normal course of business, at contracted rates and terms determined in accordance with the market rates.

Transactions and balances with related parties other than those disclosed elsewhere are as follows:
